## Supplement Information

Pet-tek Immune Booster (formally MBF Superior Health) is an all natural 'human grade' powder supplement for dogs and cats.

This supplement is Health Canada Certified, veterinary approved and manufactured in Alberta at the highest level, ensuring the interiority of the ingredients. It does not contain any fillers, artificial flavoring or artificial coloring.

## Toxins

Your pet inhales and ingests natural and synthetic toxins every day of their life, and most of these toxins cannot be avoided. They can be found in lawn fertilizers, household cleaners, pollutants, carcinogens, pharmaceutical drugs, bio-engineered food, and the list goes on.

For dogs and cats immune systems, life is a long battle against the endless attack of periods of viruses, bacteria, molds and toxins.

## Research

In the last twenty five years, the volume of research into glutathione has grown immensely. Researchers have determined that glutathione works to prevent cancers from developing, and effectively combats cancers already established in the body.

## Testimonials

*"Cinder will be 11 in April of 2010. Her mobility had gotten so bad, I thought I would have to put her down. Within three weeks of giving her the Pet-tek Immune Booster (formally MBF Superior Health), we saw significant improvement and by six weeks, the vet agreed that her mobility was excellent.*

*Cinder now runs around like a two year old!"*

*-- Ntala from Barrhead, AB*

*"My 6 yr old lab Kylie, was losing her hair, her skin itched badly and her energy level had decreased dramatically. The medication we were given by the vet, had very little effect. We took her off the medication and started her on Pet-tek Immune Booster (formally MBF Superior Health).*

*After only a Month of being on the supplement, her hair is growing back, the itching has stopped completely, and I'm amazed by her increased energy level!!*

*I will be putting my two other dogs on Pet-tek Immune Booster (formally MBF Superior Health), as a preventative measure".*

*Thanks for everything...it's about time that someone cared enough to put out a product like this one, into the market place!!!"*

*-- Doug from Edmonton, AB*
